Lesson Plan: Time based Montage/Collage - Progressive Sequence
(*- scaffolds on Animated GIF)

Introduction to concept of constructing a time based montage/collage within a sequence of images. Developing narrative and non narrative sequences, abstract sequences, progressive action.

As an introduction to fundamental time based and animation forms/media considerations, produce 3-5 animation sequences with a minimum of 5 frames. Consider compositional issues related to a sequence of related images, transition, frame composition, compositional flow, order, transition. Consider human or animal locomotion, body position, gesture, narrative and non-narrative structures of linear story telling vs non-linear or abstraction.

Utilize diverse forms of media in interaction; raster, vector, digital camera image, video, audio, text and image.

Grade Level: Middle/Secondary Grades 6-12 - (Advancing complexity of media/ elements)

Vocabulary : Locomotion, motion, flow, tempo, transition sequence, narrative, linear, non-linear, media, format

Conceptual : sequence, narrative, non narrative, linear, non linear

Aesthetic : Compositional Elements, Time, Transition,

Artists: Olivia Parker, Duane Michaels, Eadweard Muybridge, Steina and Woody Vasulka, The Kitchen, Johanna Priestly

Technical:

Adobe Photoshop 7, CS3/CS5, Adobe Bridge : Layers Panel and manipulation, Animation/Timeline Panels, Scripts, Batch Processing, Save As, File Types, Image Size and Resolution.
